

# LINGER'S GUIDE SERVICE

Trout fishing trips on the White & Norfolk Rivers are an experience for all the family to enjoy. Once you have enjoyed this experience you will come back as 80% of our customers have over the years.

Trout bite year around and there is no particular time the fish bite better. It really depends on what type of weather you enjoy being in while enjoying nature and reeling in the "Finny Foe". Generally speaking the larger trout bite better from December through March but you might catch the big one most any time you are here. My personal best trout came in the month of May and the next two largest came in July and September.

I specialize in artificial bait fishing for larger Brown Trout and Rainbows but sometimes the water conditions dictate we go to the bottom to catch the fish we want. If the fish will hit the artificial baits then the Rattlin Rogue and Countdown Rapala are the baits of choice. If the

water is low the Blue Fox spinner works well. If we have to go to the bottom we bounce Power Baits, shad, worms, or crawdad tails along the bottom to catch our fish. Whatever it takes we can "Make It Happen" and show you a great day on the river!
